

HOW TO ASSEMBLE YOUR

Adjustable Bath Seat with Removable Back

Item # 9101/9101-R

Capacity not to exceed 300 lb

No tools required
Quick Assembly

Easy to follow
step by step
instructions

- 1** Remove all parts from box:
Ensure all parts are included before assembling

- (1) Seat/Frame
- (4) Legs and extensions
- (1) Backrest
- (2) L-shaped back tubes

- 2** Place the seat face down on a level surface. Insert the legs into the seat frame. Depress the brass button at the top of the leg and push the leg into the seat frame until the brass button protrudes out of the hole. Ensure that the brass button “clicks” and locks into position. Use the push buttons and numbered holes on the leg to adjust the seat to a desired height. Ensure that each leg is set to the same height, stable, and all push buttons “click” and lock into position.

- 3** Insert the L-shaped back tubes into the backrest tubes. As you slide in the L-shaped back tube, push the brass button on the backrest tube until the brass button protrudes out of the hole of the L-shaped back tube. Ensure that the brass button “clicks” and locks into position.

- 4** Turn the chair on its side so that the backrest tube inserts under the seat are facing upward. Slide the backrest tubes into the tube inserts while depressing the brass push buttons on the backrest tubes. Ensure that the brass buttons “click” and lock into position.

HOW TO USE

Place the bath bench in the shower or bath tub. Ensure that the bench is stable and not wobbly. Use the slots on the side of the seat as handles to assist in sitting down or getting up from the bench. The two round slots in the front and rear corners of the seat can be used to place a hand held shower set if needed. **NOTE: Use both hands to hold onto the side handles to ensure stability of the bath bench. Using only one hand on either side can topple the bench.**

Hand Held Shower Set not included
